Summary

DevOps and Cloud professional with more than **2 years of experience** in cloud infrastructure, automation, CI/CD, containers, and monitoring. Skilled in **AWS, Azure**, and modern DevOps tools, with experience building scalable and reliable systems. Strong in deployment optimization, system monitoring, and team collaboration, with recognized achievements and certifications.

Experience

Akal Information Systems Ltd. (Project: Department of Agriculture)

DevOps Engineer

May 2026 – Present

- Automated end-to-end CI/CD workflows using Azure DevOps and Jenkins, accelerating release cycles by 70
- Scaled and managed containerized workloads using Docker, Terraform, and Ansible, maintaining 99.95
- Established enterprise monitoring and incident response processes with Prometheus, Grafana, and Azure Monitor, reducing production incidents and cutting MTTR by 40
- Owned production operations for the Agridarshan Portal, handling deployments, infrastructure optimization, disaster recovery, and performance tuning to support growing user demand and service reliability.
- Mentored junior engineers on DevOps best practices and automation workflows.

HCLTech (Project: Verizon)

Senior Analyst

May 2025 – Oct 2025

- Managed DevOps operations, CI/CD pipelines, monitoring, and automation for enterprise-scale applications.
- Collaborated with development and infrastructure teams to ensure seamless software delivery.
- Implemented Infrastructure as Code using Terraform and Ansible for multi-cloud environments.
- Configured Prometheus and Grafana dashboards for proactive monitoring and alerting.

Starter (Project: Flipkart)

Executive – Operations

Apr 2024 – Apr 2025

- Delivered operational support for cloud and on-premise systems, ensuring 99.9
- Coordinated with cross-functional teams to implement automation scripts reducing repetitive manual tasks.
- Developed basic CI/CD workflows for in-house applications, improving deployment consistency.

Pristyn Care

Intern – Operations

May 2022 – Nov 2022

- Assisted in managing containerized environments with Docker and Kubernetes
- Supported monitoring setup using ELK stack and Grafana for real-time performance visibility.
- Contributed to scripting automation for daily operations (Python, Bash).
- Documented operational workflows and deployment guides for internal use.

Projects

CloudFormation Project

- Installed and configured Jenkins on AWS EC2, integrated with GitHub for automated deployments.
- Created Jenkins pipeline to deploy AWS resources via CloudFormation using AWS CLI.
- Verified deployment and monitored stack execution for successful provisioning.

Cloud Native Resource Monitoring Python App on Kubernetes

- Developed a Python/Flask app to monitor CPU, memory, and disk usage using `psutil`.
- Containerized with Docker and deployed to AWS EKS.
- Used Amazon ECR for Docker image repository and automated deployments with `boto3`.
- Automated scaling and deployments using Kubernetes manifests and Python scripts.

Technical Skills

- **Version Control:** Git, GitHub
- **Automation & Orchestration:** Jenkins, GitLab CI, Kubernetes, Docker, Helm
- **Infrastructure as Code:** Terraform, Ansible
- **Monitoring & Logging:** Prometheus, ELK Stack, Grafana
- **Cloud Platforms:** Azure, AWS, OCI
- **Programming:** C++, Python, Java, PHP
- **Databases:** MySQL, RDS, Aurora, MariaDB, PostgreSQL
- **Scripting:** Python, Bash
- **Operating Systems:** Linux/Unix Administration

Education

Bachelor's in Computer Science and Information Technology – Ambalika Institute of Management and Technology (AKTU, Lucknow) *2018–2022*
Intermediate (ISC Board) – Unity College, Lucknow *2018*
High School (ICSE Board) – Unity College, Lucknow *2016*

Achievements
